WORK EXPERIENCE

Bihar Techno Group

Software Developer

Patna, Bihar

June 2023 – January 2024

- Led the development of cross-platform mobile applications using React Native, ensuring a consistent and engaging user experience across iOS and Android platforms. Implemented interactive user interfaces and optimized app performance through efficient coding practices and integration of native device features.
- Integrated RESTful APIs seamlessly into the mobile applications, enhancing app functionality and enabling real-time data updates.
- Developed a responsive admin panel website using Next.js, providing administrators with an intuitive interface for managing and monitoring the mobile application.
- Engineered RESTful APIs using Node.js to serve as the backend infrastructure for the mobile application, ensuring efficient data communication and storage.

BasketHunt Pvt Ltd.

Web Developer

Remote

Aug 2022 – Oct 2022

- Collaborated with designers and content creators to create a visually appealing and user-friendly website for a high-profile client, resulting in positive feedback and increased user engagement.
- Optimized website performance by implementing front-end optimization techniques, resulting in a 40% decrease in page load time and improved search engine rankings.
- Resolved critical security vulnerabilities in a web application by implementing robust authentication and authorization mechanisms, ensuring compliance with industry standards and mitigating potential risks.

The Entrepreneurship Network

Python Developer

Remote

Jun 2022 – Jul 2022

- Developed and maintained a scalable web application using Python and Django, resulting in a 50% increase in user engagement.
- Implemented data processing and analysis pipelines using Python and Pandas, reducing data processing time by 30% and improving overall data accuracy for business decision-making.

Expose Trendze

Wordpress Developer

Remote

Sep 2022 – Oct 2022

- Implemented custom themes and plugins using PHP, HTML, CSS, and JavaScript, providing tailored solutions that meet client requirements and enhance website functionality.
- Provided ongoing website maintenance and support, including troubleshooting issues, fixing bugs, and implementing updates to WordPress core and plugins.

PROJECTS

DOCTOR PRESCRIBER SYSTEM

- Developed a disease prediction system using Django, PostgreSQL, HTML, CSS, JavaScript enabling patients to input their symptoms and receive predictions about potential diseases.

- Implemented a machine learning algorithm that analyzes symptom data provided by patients and predicts potential diseases based on historical medical data and patterns.

EVENT MANAGEMENT SYSTEM

- Developed a student-centric event management system using PHP, MySQL, HTML, CSS and JavaScript enabling seamless registration and participation in college events.
- Created a user-friendly web interface that allowed students to easily browse and register for upcoming events, improving engagement and participation rates.
